Since 1988, Eastern DataComm has provided communication and technology solutions to dozens of schools and libraries throughout the NJ and NY metropolitan areas, ranging from individual school buildings to large, multi-site campuses. Our solutions are designed and implemented with one purpose: to keep students safe and enable teachers and staff to communicate quickly and clearly. Eastern DataComm's [lockdown and emergency notification system](#) is a comprehensive system that fully addresses what a school district needs in the case of an emergency event. You can instantly and automatically notify everyone on school grounds that an emergency situation has commenced. Our communications products also include VoIP phone systems, lockdown and emergency notification systems, paging and intercom systems, BYOD device and application management, bell schedules and controllers, Wi-Fi access, structured cabling and wiring, and more. We are a ShoreTel Gold Champion Partner.
